

HEALTH POLICY INSTITUTE OF OHIO (HPIO)

You're invited to participate:

Health Information Security & Privacy Collaboration:
The Future of Health Information Technology in Ohio—Regional Meeting

December 11, 2006

9 a.m.—Noon

St. Anne's Mercy Hospital

3404 W. Sylvania Ave.

Toledo, Ohio 43623

Program Description:

On December 11, 2006 from 9 a.m. to Noon there will be a Northwest Ohio regional meeting to discuss health information technology, health information exchange and related privacy and security issues. There has been a great deal of discussion locally, statewide and nationally about moving from paper to electronic records in healthcare. The adoption of information technology is viewed as a primary means by which we can improve the quality and reduce the cost of healthcare. Given the importance of this topic to our community; we would like to invite you to a meeting at Toledo's St. Anne's Mercy Hospital.

During this meeting the Health Policy Institute of Ohio (HPIO) will present information on the Ohio Roadmap for health information technology and exchange. HPIO will also describe the findings of the Health Information Security and Privacy Collaboration (HISPC) in Ohio. Noting the changes occurring in state leadership, this will be a timely and important discussion. This meeting seeks to both inform and gather input from the area on the Roadmap and the HISPC project. To review the HPIO documents in advance, please visit: <http://hispc.pbwiki.com/>.

Agenda:

1. Welcome
2. Health Information Security & Privacy Collaboration Update
3. Q&A
4. Roadmap Presentation
5. Q&A
